About Me

With over 2 years of practical experience in Web Development, I specialize in creating responsive, user-centric websites using platforms such as WordPress and Shopify. My expertise extends to designing clean and intuitive user interfaces with Figma, ensuring optimal usability and engagement. Additionally, I'm always eager to learn and grow in a dynamic.

Experience

Web Developer

2025 – present

Chipper Creative Pvt. Ltd Udaipur

Built and customized WordPress websites using Elementor, custom themes, and bespoke plugins for a variety of clients. Collaborated closely with graphic designers to transform UI mockups into fully responsive, production-ready web pages. Completed a full Shopify specialization, creating storefronts, integrating third-party apps, and developing a custom Shopify app from scratch.

Web Developer

2023-2025

We Connect Soft Solutions Pvt. Ltd, kota

Developed and maintained client websites, consistently delivering high-quality projects on time. Implemented and customized content management systems such as WordPress, along with e-commerce platforms like Shopify. Designed user-friendly interfaces in Figma and converted them into responsive, high-performance websites, ensuring clean, reusable code and an optimal user experience. Also handled debugging and troubleshooting to resolve technical issues efficiently. Additionally, gained hands-on experience in content writing and SEO, contributing to improved website visibility and performance.

Certification

Full Stack Developer

Codeplanet Technologies

Gained comprehensive knowledge of Full Stack Development along with practical exposure to professional work culture and development processes. Worked with technologies such as Spring MVC, Java, MySQL, HTML, CSS, JavaScript, and React. Additionally, developed multiple projects while building hands-on experience and strengthening technical skills in full stack development.

Shopify

Completed a comprehensive Shopify course where I learned to build and customize websites, integrate third-party apps, work with custom code, and understand Shopify Liquid files. Along with these, I gained knowledge of other essential aspects of Shopify development and applied these skills in real-world websites to create functional and optimized online stores.
